

Are You sure...?

YOUR SUCCESS WITH OUR CONTRIBUTION

Risk Analysis Consultants is an independent consulting company providing services and solutions in all areas of information security. From 1995 the RAC specialist team helps to protect **information security** in the information systems of the state administration, banks, financial institutions, and telecommunication and industrial enterprises.

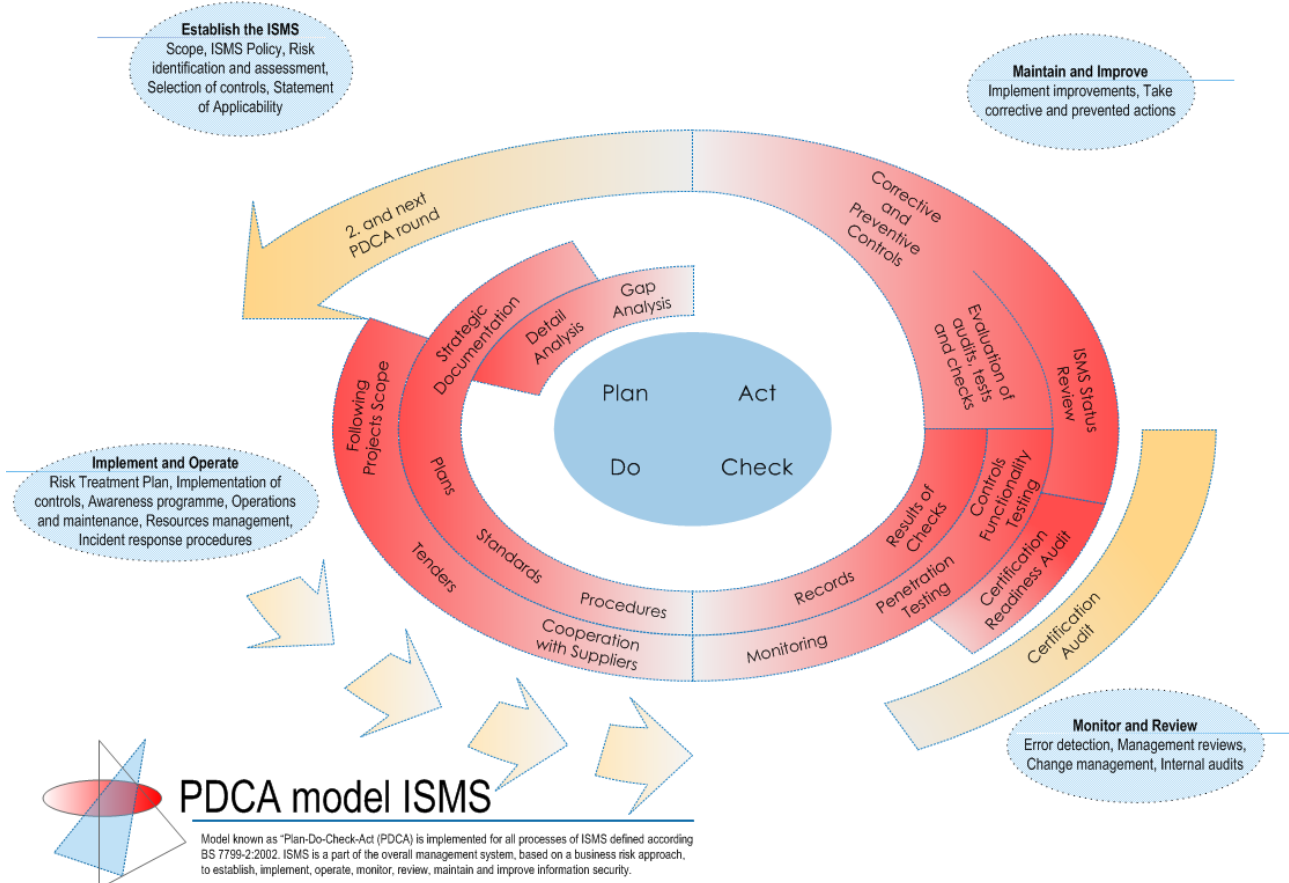

A complex and systematic approach to the solution of the problems of the information security within the organization is a **clear and concise way** to acquire the desired level of the information and information systems security for all RAC clients. The stated solutions are **in compliance with the international standards** and related to the national legislation and in regards to the client's individual requirements.

RAC is the first consulting company in the Czech Republic with an implemented Integrated Management System (IMS), certified by the **Det Norske Veritas** in the area of the Quality Management System (QMS) according to **ISO 9001:2000** and in the area of the Information Security Management System (ISMS) according to **ISO 27001:2005** under the British accreditation **UKAS**.

Inquire us about the security of your information, whether your security is according to reputable norms, recommendations and practices.

*We translate and interpret to the Czech environment standards for information security such as **ISO/IEC 27001, ISO/IEC 27002, BS 7799- 3, PAS 56, AS/AZN 4360.** These standards are available separately or as part of the realization project implementation of the Information Security Management System including risk analysis.*

RAC specialists are members of international professional organizations in area protection of information (ISACA, BCI).
